Speakers . . . !

- Take your presentations to the *projection booth* at least one session earlier than your session.
- Go to the *microphone fitting desk* at the back, right hand corner of the meeting room one speaker before your time to be fitted with the microphone.
- Then move down the right side of the room to the seat directly behind the timekeeper and session chair.
- **Turn on the microphone before** you leave your seat to do your presentation. Begin talking immediately. Do not ask “is the microphone working?” It will be if you turned it on. GMD staff will adjust the volume as you speak.
- **Return** your microphone and pointer to the microphone station at the right rear of the room immediately after your presentation.
- **Watch the screen!** Speakers have 11 minutes to talk. At 9 minutes the yellow screen comes on alerting you to be finished in 2 minutes. At 11 minutes the *red screen* comes on starting a 3 minute question period. If you are not finished with your presentation at 11 minutes, a bell will ring and you will be told verbally your time is up.
- **Audience:** Hold the portable microphone close -- no farther away than 1 inch from your mouth. Speak loud and clear. You will be talking to 150+ people in the room and 100 on the Web connection.
